**ADMISSIONS
PER DAY**

977 All ABIs
433 Head injuries
376 Strokes

Total ABI admissions include head injuries, strokes, brain tumours, and other conditions such as meningitis, encephalitis and hydrocephalus. Not all these people will be left with a long-term disability, so ABI is used as short-hand for 'ABI-related diagnosis'. Admissions do not equate to individuals as one person can have multiple admissions. Overall, individual patients make up approximately 85% of all admissions and over 90% of head injury admissions.
